## Fork Lift – Industrial Lift Truck

8 hours – Client provides the equipment

**\*\*\*Note:** All equipment must have valid licensing, insurance, annual inspection certificate and be in sound mechanical and structural condition. Equipment that does not meet these requirements will not be allowed for use for the practical training and demonstration.

### After completing this training, participants will:

- Understand the design and limitations of an Industrial Lift Truck .
- Know how to conduct a pre-use inspection of an Industrial Lift Truck.
- Demonstrate safe operating procedures of an Industrial Lift Truck.
- Know the roles and responsibilities for the safe operation of an Industrial Lift Truck and it's attachments

### Course Outline

- Classroom training – 2 hours of lecture and videos.
- Practical training – 6 hours of demonstration and hands-on training followed by a proficiency demonstration.
- Evaluation – evaluation of operator performance

### For successful completion of this training, participants will:

- Complete a knowledge-based written review.
- Demonstrate completion of a pre-use inspection and safe operation of an Industrial Lift Truck.

### Who Should Attend The Industrial Lift Truck Training Course?

Those who are required to operate and use or supervise a Industrial Lift Truck. Participants will learn safe operating practices and procedures for the safe operation of a Industrial Lift Truck. Statistics show that trained operators are less likely to become involved in costly incidents that cause personal injury, property damage or product loss.

This course includes:

- Fundamentals of safe a Industrial Lift Truck operation
- Pre use inspections
- Safe operation of the Industrial Lift Truck and associated attachments
- Safe handling of loads
- Safe task procedures
- Workplace Health and Safety Regulations in respect to the operation of mobile equipment.

This training course is designed to point out some of the basic safety precautions that should be taken in the daily operation of a Industrial Lift Truck. Which includes maintenance, recommended pre start inspections and monthly inspections.

We will not be able to demonstrate to you all of the safe operation of the many attachments that can be associated with a Industrial Lift Truck

It is important that you read, understand and comply with both the provincial regulations and the manufacturers manual regarding the operation of your Industrial Lift Truck.

Note the Industrial Lift Truck training is for classes one to six - not class seven industrial lift trucks.
