Backhoe Loader Operator

16 hours – Client provides the equipment

*****Note:** All equipment must have valid licensing, insurance, annual inspection certificate and be in sound mechanical and structural condition. Equipment that does not meet these requirements will not be allowed for use for the practical training and demonstration.

After completing this training, participants will:

- Understand the design and limitations of a Backhoe loader.
- Know how to conduct a pre-use inspection of a Backhoe Loader.
- Demonstrate safe operating procedures of a Backhoe Loader.
- Know the roles and responsibilities for the safe operation of a Backhoe Loader and its attachments

Course Outline

- Classroom training – eight hours of lecture and videos.
- Practical training – eight hours of demonstration and hands-on training followed by a proficiency demonstration.
- Evaluation – evaluation of operator performance

For successful completion of this training, participants will:

- Complete a knowledge-based written review.
- Demonstrate completion of a pre-use inspection and safe operation of a Backhoe Loader.

Who Should Attend the Backhoe Loader Training Course?

Those who are required to operate and use a Backhoe Loader or supervise those who do.

Participants will learn safe operating practices and procedures for the safe operation of a Backhoe Loader.

Statistics show that trained operators are less likely to become involved in costly incidents that cause personal injury, property damage or product loss.

This course includes:

- Fundamentals of safe Backhoe Loader operation
- Pre use inspections
- Safe operation of the Backhoe Loader and associated attachments
- Safe handling of loads
- Safe task procedures
- Workplace Health and Safety Regulations in respect to the operation of mobile equipment and excavation

This training course is designed to point out some of the basic safety precautions that should be taken in the daily operation of Backhoe Loader. Which includes maintenance, recommended pre-start inspections and monthly inspections.

We will not be able to demonstrate to you all of the safe operation of the many attachments that can be associated with a Backhoe Loader.

It is important that you read, understand and comply with both the provincial regulations and the manufacturers manual regarding the operation of your Backhoe Loader.

If your Backhoe Loader is not equipped with the manufacturer's operators' manual, get a replacement from your dealer and keep it in your loader for quick and easy reference
