Fire Suppression

Level 1

2.5 hrs. Theory

Designed for workers that are exposed to a low fire hazard such as pipeline and facility fabrication, trucking companies, and office personnel. In a classroom setting, you'll learn about the different classifications of fire, and what extinguishing equipment to use for each classification.

- Classification
 - o Class A
 - o Class B
 - o Class C
 - o Class D
 - o Class K
- Types of Fire Extinguishers and Extinguishing Agents
- Maintenance routines for the fire extinguishers found in your workplace
- P.A.S.S.
- Fire Extinguisher Application Techniques

Level 2

4 – 6 hrs

It is designed for workers that are exposed to a moderate fire hazard (All moderate hazard situations that require up to 30 lb portable fire extinguishers at the work site) and/ or do not have wheeled fire extinguishers at their work site. It covers all material in Level 1, as well as:

- Practical, hands on training on moderate sized fires

Each student will practice extinguishing techniques in several different flammable liquid fire scenarios.

Level 3

8 hrs

Prerequisite

- Level 2 Fire Suppression.

It is designed for workers that are exposed to an extreme fire hazard (situations that require wheeled 150 and 350 lb fire extinguishers and foam) and/ or have wheeled fire extinguishers at their work site.
