Pesticide Applications

3 Days

The Pesticide Applicator course prepares students for the Provincial Pesticide Applicator Licence exam, in order to become qualified to apply Commercial pesticides to private and Public land. The course covers Pesticide toxicity, application equipment, applicator safety, Public safety, legislation, fish, wildlife and the environment, pest lifecycles, labels and professionalism. All required course study material, practice quizzes and practice exam, and the 3 hour Provincial exam for any of the certifications listed below are included. The Instructor has provided the course in Northeast BC over the past 18 years, and has over 3 decades of application experience in forestry, industrial and landscape settings.

Agriculture

Forestry

Industrial Veg Management/Noxious Weeds

Landscape

Pesticide Dispenser
